Small Pistol Safe

Part Number: SPS-01

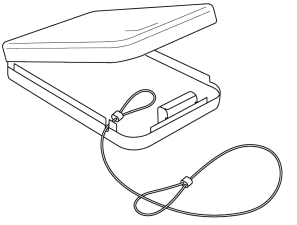

How to change the combo:

1) Turn the three wheel combination to factory code: 0-0-0 and turn the knob clockwise to the open position.
2) LEAVE THE KNOB TURNED.
3) Open the lid. On the underside of the lid, move the lever from the “A” position to the “B” position.
4) Set your personal combination by turning each of the three wheels to your desired number.
5) With the lid still open, turn the knob to the locked (counter-clockwise) position.
6) Return the lever on the underside of the lid from “B” to “A”.
7) Your new combination is set.

Securing the Safe

NOTE: The SPS-01 should be installed in a dry and secure area. Failure to secure the SPS-01 to a fixed object will compromise the safety and the security of the safe.

CAUTION: KEEP SPS-01 OUT OF REACH OF CHILDREN.

There are two ways to secure the SPS-01:

1) Using the supplied cable:
To secure the SPS-01 to a fixed object:

a) Open your safe (see above instructions) and keep it in the open position.
b) Loop the **small end** of the cable around the fixed object and then **through** the **large end** of the cable.
c) Place the small end of the cable into the notch of the open safe.
(Make sure the metal stud on the cable is inside the safe.)
d) Close and lock the safe.

2) Using the pre-drilled mounting holes: *(mounting hardware NOT included)*
Your SPS-01 has two pre-drilled mounting holes in the bottom of the safe.

a) Open your safe (see above instructions).
b) Remove the inner foam padding.
c) Locate the holes.
d) Place the safe in the desired location.
e) Install the proper hardware for the surface material you are mounting to.
(mounting hardware NOT included)
